HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

DETAILED ACTION

This Examiner Amendment and Reasons for Allowance action is in response to the filing of 06/19/2009.

Drawings

1. The drawings are objected to because a backslash "\" in box S11 of Fig. 3 appears to be a typographical error. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick Wamsley on 07/08/2009.

3. The application has been amended as follows:

- Claim 3
 - Line 3, replace "a" with --the-- after "by effecting".
- Claim 11
 - Line 3, replace "ECC" with --Elliptic Curve Cryptography (ECC)--.
- Claim 12
 - Line 3, replace "ECC" with --Elliptic Curve Cryptography (ECC)--.
- Claim 13
 - Line 3, replace "ECC" with --Elliptic Curve Cryptography (ECC)--.
- Claim 14
 - Line 1, replace "the" with --an--.
 - Line 2, replace "a" with --the--.
 - Line 4, replace "a" with --the digital--.
- Claim 15
 - Line 1, replace "the" with --an--.

- Line 2, replace "a" with --the--.
- Line 4, replace "a" with --the digital--.
- Claim 20
 - Line 2, replace "a" with --the-- after "by".

Allowance

4. Claims 16, 17 and 31-33 have been cancelled.
5. Claims 1-15, 18 and 23-30 have been amended with written arguments which overcome the Examiner's prior rejections and objections, see paper of 06/19/2009. Examiner withdraws all outstanding rejections and objections to claims 1-15 and 18-30.
6. Claims 1-15 and 18-30 are allowed.

Examiner's Statement of Reasons for Allowance

Prior art was found which disclosed "a decrypting mechanism through calculating a standardized modular exponentiation for thwarting timing attacks", "incomplete modular arithmetic", "accelerated Montgomery exponentiation using plural multipliers", "high speed Montgomery value calculation" and "selecting cryptographic key sizes" [i.e. Hollmann et al. (US 6,366,673 B1), Koc et al. (US 2002/0059353 A1), Blaker (US 2002/0010730 A1), McGregor (US 6,240,436 B1) and Lenstra et al., Selecting Cryptographic Key Sizes, Journal of Cryptology, 14 August 2001, pp. 260].

7. The following is an examiner's statement of reasons for allowance:

- The prior art of record do not teach or render obvious the limitations as recited in independent claims 1 and 18, specific to the steps and variables involved in the reduction operation on the modulus, "multiplying a first variable n_0' by a second variable r_3 to produce a first result", "adding the first result to a third variable r_1 and B multiplied by a fourth variable r_2 to produce a first sum, wherein the first sum corresponds to a first equation: $n_0' r_3 + B r_2 + r_1$ ", "dividing the first sum into an upper half and a lower half", "multiplying the upper half by the first variable n_0' to produce a second result", "adding the second result to the lower half and a fifth variable r_0 to produce a second sum, thereby permitting use of the second sum as the modulus" and "using the modulus in the cryptographic calculation".
- Therefore, the Examiner considers the combination of at least the independent claim limitations, "selecting a modulus having a first section with a plurality of "1" Most Significant Word states" and "a second section which further comprises: a plurality of "1" or "0" states whereby a number formed of the two sections is a modulus" with the above limitations not taught by the prior art of record, as applied to reduction operation, as the non-obvious novelties of the Applicant's claimed invention.
- Dependent claims are allowed as they depend from allowable independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
